ALLOWANCE

1. The following is an Allowance in response to the Amendment submitted on 7 October 2009. Claims 1, 25 and 29 were currently amended. Claims 2, 4 and 8- 24 were cancelled. Claims 1, 3, 5-7 and 25-32 are currently pending and allowed below.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance.

The present invention is directed to the computation of a number (a quantity) of phase goals associated with a plurality of product phases that correspond to a product lifecycle. This number of phase goals is based upon the weighted priority count for a selected common metric. The basic idea behind this invention therefore is to increase the level of scrutiny in terms of the number of phase goals based on the relative importance, the weighted priority, of the common metric. By applying more phase goals proportionate to the weighted priority, a product development phase has a greater level of scrutiny such as review and testing or whatever the corresponding development phase activities are.

The closest prior art is Corral (US PgPub 20030188290), Nandigama et al (US PG PUBS 20040010441), Vouk ("Software Reliability Engineering") and Mendonca et al. ("Validation of an Approach for Improving Existing Measurement Frameworks"). The combined references of Corral, Nandigama et al, Vouk and Mendonca fail to teach or suggest either singularly or in combination the claimed invention. Applicant's arguments filed on October 7, 2009 (Pages 12-14 in

Art Unit: 3624

particular) are deemed to be persuasive and adequately reflect the Examiner's opinion as to why claims 1, 3, 5-7 and 25-32 are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
